Cypress Semiconductor Corp., the owner of the entire interest of the above described U.S. Patent Application No. 10/001,458, filed November 13, 2001, by assignment recorded in Reel 012435, Frame 0615 under date of January 9, 2002, hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the instant application, which would extend beyond the expiration date of the full statutory term as presently shortened by any terminal disclaimer, of prior issued U.S. Patent No. 6,362,898.

The owner hereby agrees that any patent so granted on the above-identified application shall be enforceable only for and during such period that it and the prior patent are commonly owned. This agreement runs with any patent granted on the above-identified application and is binding upon the grantor, its successors or assigns.

In making the above disclaimer, the owner does not disclaim the terminal part of any patent granted on the above-identified application that would extend to the expiration date of the full statutory term of the prior patent, as presently shortened by any terminal disclaimer, in the event that it later expires for failure to pay a maintenance fee, or is held unenforceable, or is found invalid, or is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321(a), or has all claims cancelled by a reexamination certificate, is reissued, or is otherwise terminated prior to its full statutory term as presently shortened by any terminal disclaimer.

The undersigned is an attorney of record of the instant application.
